For	:	ERROR PROCESSING METHODS FOR PROVIDING RESPONSIVE CONTENT TO A USER WHEN A PAGE LOAD ERROR OCCURS
Examiner	:	Joseph E. Avellino
Confirmation No.	:	7202

SUBSTANCE OF INTERVIEW
AND COMMENTS REGARDING AMENDMENTS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

On June 29, 2007, Examiner Avellino advised Mr. Schoenbaum (Applicants' representative) by voicemail that the application would be allowable if Applicants amend the independent claims to specify some of the types of alternate objects that can be included in the hierarchy. On the same day, Mr. Schoenbaum sent proposed amendments to Examiner Avellino by email. Subsequently, Examiner Avellino called Mr. Schoenbaum and suggested further amending the independent claims by adding limitations related to the ability for the user to specify the hierarchy. Examiner Avellino indicated that this addition would provide a distinction over Holzer (cited in the previous Office Action) and Nielsen (U.S. Pat. 5,892,919). On August 8, 2007, Mr. Schoenbaum responded by sending additional proposed amendments to Examiner Avellino, and by authorizing Examiner Avellino to enter the proposed amendments by Examiner's Amendment.

Appl. No. : 10/634,633
Filed : August 5, 2003

By amending the claims, Applicants are not disclaiming any subject matter. Applicants reserve the right to pursue additional claims, including claims of broader scope, in a continuing application. For example, Applicants reserve the right to pursue claims that are not limited to the particular types of alternate objects currently mentioned in the claims.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
